The Carribean

These are the R & B / Freak Beat band **The Beat Preachers** (by another name). They released a sing reviewed at the time by Coventry Express

Single (as 'The Caribbean'):

Inside out / Up my street - 1965 (as The Caribbean) (Pye 7N 15961 - 1)

"Very different are the Beat Preachers. They have changed as drastically as any local group. Not so long ago, they sported shoulder-length hair and were very much on a Stones kick in their music. Now the barber has done his work and they all sport well-groomed manes. Their sound has changed too. They now have a distinct "surfin sound" - although manager Colin Maskell assures me the sound is unintentional. " From Coventry Express, Friday May 28th 1965 Citybeat by Paul Connew (Via Tim James)
